

**Sumika Polymer Compounds**

Sumitomo Chemical Group

DECLARATION

Object: THERMOFIL PP-GF30/2 Noir

The chemical composition of the product referenced above is accepted uses in manufacture of plastics for food contact according directive 2002/72/CE, decret-law N° 62/2008 and our suppliers' food contact declaration.

According European directive 2002/72/EC and its amendments to date, the verification of compliance with the specific migration limit (SML) should be measured in the finished products state at the real conditions of use.

RECOMMENDATIONS:

All indications given are based on data contained in current literature and information provided by our suppliers of raw materials. Information contained herein on the present state of knowledge or by analysis and measurements and this certificate can not extend for moulding conditions (polymer modifications , degradations , recycling , external modifications such as release agent etc ..)

Made at Saint Martin-de Crau, 08 July 2010
